Frontend	HTML, CSS, Bootstrap
Backend	Java
Database	MySQL

PROJECTS

PAN Card Fraud Detection | Python, CNN, OCR (Optical Character Recognition), MySQL |

- The project proposes a two-level authentication system for identity verification.
- The first level involves using Convolutional Neural Networks (CNN) to compare features and identify individuals.
- The second level utilizes Optical Character Recognition (OCR) to extract the PAN Card number from the PAN
- Card and match it with a database.

Price Drop Alert System | Python, Web scraping |

- A small web scrapper project that sends Mail and SMS when the price falls below their anticipated price.
- The project accepts a URL, the user's email address, their phone number, and their wish price as inputs, and when the product price drops below their wish price, sends them an email and a text message.

Food Munch | HTML, CSS, Bootstrap |

- Developed a responsive website for a Food Store where users can see a list of food items, detailed information about a food item, and offers.
- Designed page using the following HTML structure elements like li, header, article, footer elements, and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through the mobile-first approach.

ACHIEVEMENTS

LetsGrowMore virtual internship

During my journey as a web developer, I successfully completed the virtual internship program offered by LetsGrowMore. Throughout the program, I gained practical experience in web development using HTML, CSS, JavaScript, Bootstrap, and Flexbox. I developed a solid foundation in front-end development, mastering the essential skills needed to create responsive and visually appealing websites. This internship program provided me with a valuable opportunity to enhance my knowledge and skills in web development, equipping me with the necessary tools to create engaging and user-friendly web interfaces.

DECLARATION

I hereby declare that the information stated above is true to the best of my knowledge.
